FLYVENTORY

Smart Drones.
Smarter Warehouses.

BRAND GUIDELINES

Logo, colour and typography rules for Flyventory

Version 1.0 | October 2026

Our logo

The Flyventory mark is a top view of a quadcopter. Four rotors with motion arcs surround a solid airframe, and the wordmark runs straight through the body. It says what we do at a glance: drones, working inside the warehouse.

ROTORS

Four solid circles. They stay navy in every colour version.

MOTION ARCS

Brand Blue crescents that show the rotors spinning. They make the mark feel like it is flying.

AIRFRAME

The concave navy body that holds the rotors together and carries the wordmark.

WORDMARK

FLYVENTORY set in Antonio Medium, widely spaced. Where it crosses the airframe the letters are cut out of the navy.

TAGLINE

Smart Drones. Smarter Warehouses. Used only in the primary lockup, never retyped.

Logo versions

Four versions cover every size and space. Pick by the space you have, not by taste. When in doubt, use the horizontal logo on screens and the logo on print.

Primary lockup

Mark, wordmark and tagline. Use at large sizes: pitch deck covers, banners, roll-ups, the website hero.

Logo

The mark with the wordmark inside. Default for print, documents, stickers and merchandise.

Horizontal logo

Clean mark with the wordmark beside it. Use where height is limited: website header, email signature, slide footers.

Icon

Mark only, no text. Use for the favicon, app icon, social media avatar and anywhere smaller than 120 px wide.

Clear space and minimum size

Keep an empty margin around the logo equal to x, the diameter of one rotor. Nothing goes inside that space: no text, edges, images or other logos.

x = diameter of one rotor (circled)

MINIMUM SIZE

Version	Screen width	Print width
Primary lockup	200 px	50 mm
Logo	120 px	30 mm
Horizontal logo	140 px	35 mm
Icon	24 px	8 mm

Below these sizes the wordmark stops being readable. Switch to the next smaller version instead of shrinking further. At favicon size use the icon on its navy tile.

Colour versions and backgrounds

Use the full-colour logo whenever the background is white or Light. On Navy or dark photos, use the white logo. The single-colour navy version is for one-colour printing, stamps and engraving.

Full colour on Light

Full colour on white

White on Navy

White on dark imagery

White on Brand Blue

Navy, one colour

What not to do

The logo only works if it looks the same everywhere. Always use the supplied files. Never redraw, retype or edit them.

Do not stretch or squash

Do not change the colours

Do not rotate

Do not add shadows, outlines or effects

Do not place on busy backgrounds

Do not retype or rearrange the logo

02 COLOUR

Colour palette

Two blues carry the brand. Navy is the anchor for text, the logo and dark sections. Brand Blue is the accent for links, buttons and highlights. Keep pages mostly white and Light so the blues stand out.

Navy

#182E52

RGB 24, 46, 82

CMYK 71, 44, 0, 68

Primary. Logo, headings, body text, dark sections.

Brand Blue

#3A63B1

RGB 58, 99, 177

CMYK 67, 44, 0, 31

Accent. Buttons, links, icons, highlights.

Light

#F4F7FD

RGB 244, 247, 253

CMYK 4, 2, 0, 1

Background for panels and alternating sections.

White

#FFFFFF

RGB 255, 255, 255

CMYK 0, 0, 0, 0

Main page background.

Slate

#5B6475

RGB 91, 100, 117

CMYK 22, 15, 0, 54

Secondary text, captions, metadata.

ROUGH BALANCE ON A PAGE

Accessible pairs (WCAG AA): Navy on White 13.5:1, Navy on Light 12.6:1, White on Brand Blue 5.8:1, Slate on White 6.0:1. Avoid Navy on Brand Blue (2.3:1). CMYK values are conversions; confirm with the printer's proof before a large print run.

Typography

Two free Google Fonts. Antonio is the voice of the logo: condensed, technical and confident. Montserrat does the work: headings, body text and interfaces.

Aa

ANTONIO

Medium 500, Regular 400

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789

Display, labels, short uppercase headlines

Aa

Montserrat

Bold 700, SemiBold 600, Regular 400

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789

Headings, body text, buttons, interface

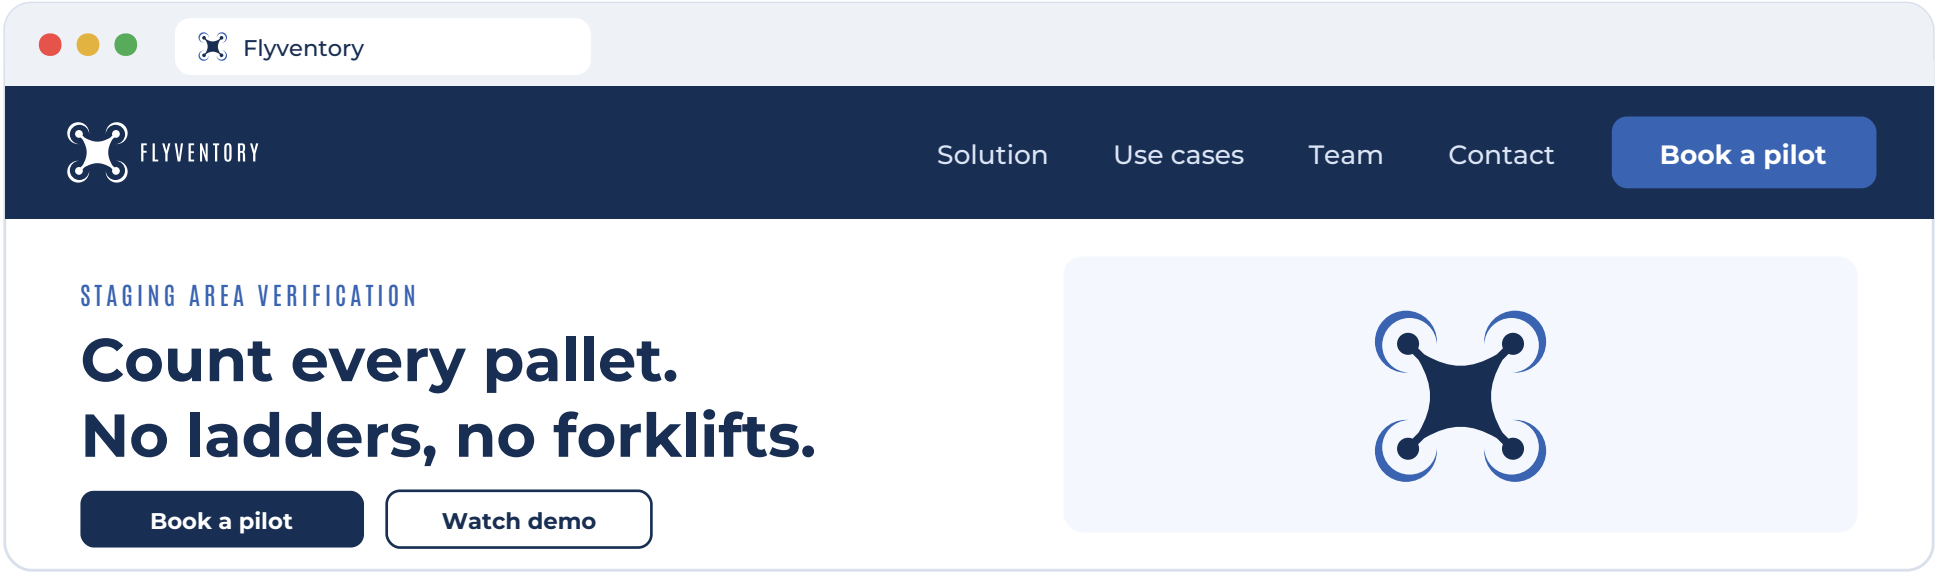

WEB HIERARCHY

Eyebrow	Antonio Medium, 14 px, uppercase, +2 tracking	STAGING AREA VERIFICATION
H1	Montserrat Bold, 48 px, line height 1.15	**Count every pallet. No ladders.**
H2	Montserrat SemiBold, 32 px, line height 1.25	**How it works**
Body	Montserrat Regular, 16 to 18 px, line height 1.6	A drone scans each label and checks it against your WMS.

04 IN USE

On the web

How the pieces come together on the website. Treat this as a starting point for the build, not a finished design.

BUTTONS

Primary: Navy fill, white text. Secondary: white with a Navy outline. Brand Blue for the main call to action in the header. Corner radius 8 px.

FAVICON

Use favicon.svg with favicon.ico as fallback, and apple-touch-icon.png (180 px) for phones. Files are in the favicon folder.

IMAGERY

Real footage from our drone and real warehouses. No stock drone photos and no other companies' hardware.

05 FILES

Logo files

Every version comes as SVG (vector, for web and print) and PNG (transparent background). Use SVG wherever the tool accepts it.

SVG/ AND PNG/

COLOUR CODES

Navy	#182E52
Brand Blue	#3A63B1
Light	#F4F7FD
Slate	#5B6475

The logo was redrawn as clean vector artwork in October 2026 from the original design. Text in the logo files is converted to outlines, so no font is needed to open them.
